FEATURES & BENEFITS

SIP SUPPORT

SIP protocol support makes the intercom link with IP phones and PBX from other producers easily.

ROBUST CASING

The door station is IP65 and IK 08 certified, which is designed to withstand rain, cold, heat, snow, dust, and cleaning agents and even the attacks by vandals.

INTEGRATION INTO CCTV & VMS

By conformance with ONVIF Profile S, the video from door station can be monitored and recorded with third-party VMS/NVR systems, to greatly enhance the security level for all types of applications.

HUMAN-CENTRIC DESIGN

Induction loop and numeric keypad with braille dot allow those who suffer from hearing or visual impairments to communicate more easily using an intercom system.
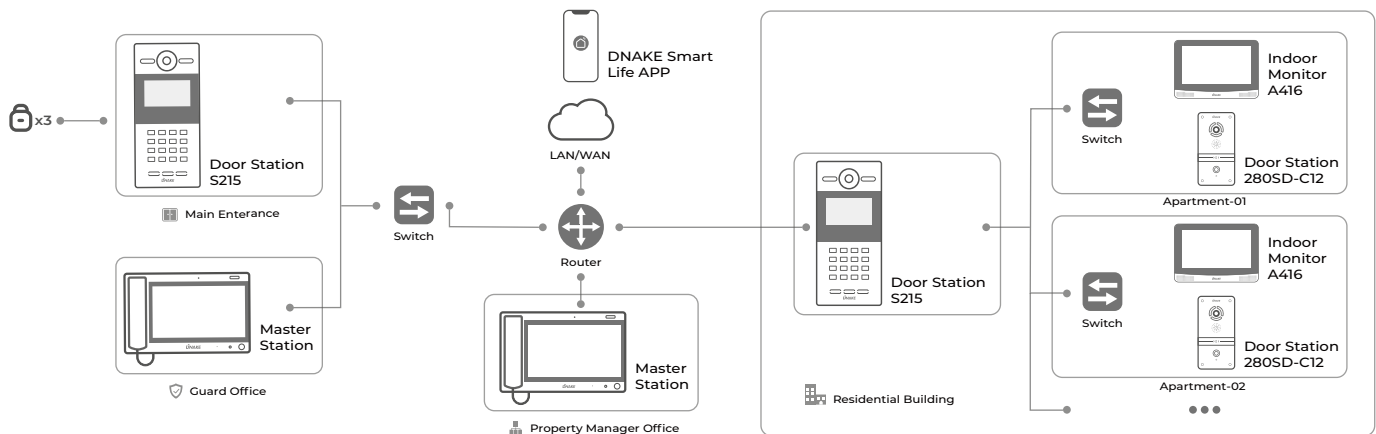

WIDE-ANGLE HD CAMERA

With a 110-degree viewing angle, the 2MP camera provides wide and clear view and enables you to know every movement that happened at your door.

MULTIPLE ACCESS

DNAKE S215 owns multiple ways of access authentication, mobile APP, PIN code, IC&ID card, or NFC, to provide reliable access control and satisfy different needs.
