ABOUT US

CEO's Message

We, SeeEyes Co., Ltd., spin-off Samsung Electronics in 1999. In the beginning stage, our role was the after sales services, training for engineers and repairing jobs for CCTV products of Samsung Electronics.

Then, we have established our own laboratory and have developed the newly innovated products for CCTV installation field with our own brand of 'SeeEyes'. We have received good reputation for those products in our local market as well as in the overseas market last few years.

We would like to thank all of our future loyal customers. You have put your faith in 'SeeEyes' products and we are committed to continue to earn your loyalty. We can assure you that we will do our best never to let you down.

Sincerely,

Hae Yong, Choi
President

ABOUT US

SeeEyes manufactures and provides innovative and cost-effective CCTV solutions including featured CCTV video and power transmission solutions over the single coaxial cable for long distance. And a wide range of high-performance video transmission solutions over the Cat 5 UTP cable are also available.

With the company's in-house System Integrator Department, we see real-world installation challenges. Based on the accumulated know-how, we design our high-performance devices proper to market needs.

SeeEyes product range covers from Analogue video transmission to IP and HD-SDI transmission solution and also covers other peripheral device for the CCTV Systems such as Portable CCTV Tester, Full HD Multiplexer, Video Distributor, Elevator floor indicator, etc.

SeeEyes has received ISO 9001: 2000, ISO 14001: 2004 certificates and a wide range of our products have been issued with CE, FCC certificates.
