An adaptor with UPS features

EVA POWER

Online-UPS design
Provides uninterrupted power
Protects your equipment

DC 2600 5V/6V/9V/12V
(Customization is available for various voltages and connectors)
Sustainable electric power up to 2~24 hours, LED indicator, ON/OFF switch, replaceable battery

{ Uninterrupted phone calls when power outage }

The manufacturers of cordless phones can release new product model to highlight the UPS feature of the product, just use EVA-POWER adaptors with a POWER version sticker on the color box.

It puts cordless phones available to make calls when power outage occurs. It is also good for all kinds of electric equipment with AC/DC adaptors, such as VoIP phone and surveillance cameras, etc.

{ Remains online when AC power is off. Protects equipment when AC power is on }

The manufacturers of network hardware can release new product model to highlight the UPS feature of the product, just use EVA-POWER adaptors with a POWER version sticker on the color box.

It puts network hardware available to remain online when power outage occurs. It is also good for all kinds of electric equipment with AC/DC adaptors, such as VoIP phones and surveillance cameras, etc.

{ Non-stop surveillance application }

Replace normal adaptors of CCTV cameras with EVA-POWER adaptor version and add an AC UPS system to your DVR. Instantly, you have a non-stop surveillance system recording safely when power outage.
