		Display	Recording
16CH	720p	960 fps	480 fps
	1080p	480 fps	240 fps
8CH	720p	480 fps	480 fps
	1080p	240 fps	240 fps

720p Display & Recording
H.264 (Fast Mode) Video Compression

- Intel® Core™ i5-2500K 3.30GHz
- Intel® Core™ i3-2120 3.3GHz

1080p Display & Recording
H.264 (Fast Mode) Video Compression

- Intel® Core™ i7-2600K 3.4GHz
- Intel® Core™ i5-2500K 3.30GHz
- Intel® Core™ i3-2120 3.3GHz

Note:*The CPU performance may vary across different system configurations. The above benchmark data is measured based on the huperVision v1.55 HD-SDI DVR system equipped with Nexcom C206 motherboard, onboard VGA, 4GB RAM, and Windows 7 64bit OS.

huperLab News

- **Reliable Solution of huperLab DVR Secured Taipei Zoo**
  The Taipei Zoo, with more than 90 years history, covers an area of 165 hectares and small hills and valleys adjacent to the zoo. There built six main buildings and eight exhibition areas for indoor and outdoor display. As spacious occupying area and numerous display buildings, stability, 24/7 operation, high performance and mobility are particularly significant for Taipei Zoo security.

- **Download/Upload DVR Remote Site List Via Your iPhone/Android Phones**
  0ftp Server is a Windows based utility to download/upload the remote server list of huperLab surveillance sites from/to your iOS/Android mobile devices.
