

Why LevelOne IP Surveillance?

LevelOne has a long standing history of being a leading vendor of innovative network solutions. We have taken this same approach to the emerging digital surveillance products. The LevelOne "Total Surveillance Solution" includes a selection of network cameras, a comprehensive range of professional surveillance management software packages, Network Video Recorder (NVR) storage, as well as the necessary networking components like switches, PoE devices and accessories, which allow users to build an advanced surveillance network with guaranteed compatibility and technical support.

FCS-94xx IP CamSecure Pro Series Surveillance Management Software

Smart Guard system and Smart Search system allows for general motion and area monitoring

- Monitor up to 64 channels simultaneously
- Supports both digital and analogue cameras in one system
- Control pan/tilt/zoom features on cameras

Related Products

Network Camera

LevelOne has a range of network cameras suitable for almost any surveillance environment. Our cameras include professional Day/Night, Indoor/Outdoor, Megapixel, PoE, box and dome cameras as well as network cameras suitable for the digital home.

Network Video Recorders

The LevelOne Network Video Recorder (NVR) series is compatible with LevelOne network cameras, enables live view, recording and playback for up to 16 network cameras via the local area network or over the Internet simultaneously.

PoE Solutions

The LevelOne range of PoE switches, injector hubs and repeaters can provide power directly to network cameras located up to 600m away. This is an excellent solution to deploy together with power redundancy to ensure constant power supply in case of power failure.
