3S SYSTEM TECH. INC.

THE WORLD-LEADING SECURITY COMPANY FULFILL ALL OF YOUR NEEDS

Successful stories all over the world as well as be a leading physical security solution company.

Over 17 years of design and R&D experiences, we provide excellent smart security surveillance products, AI intelligent video analysis and smart video management software & system with advanced technology. Our products are certified by international institutions, including high-quality and stable supply chains. All colleagues of 3S are devoted all their efforts to pursuing the quality of products and always treat our clients in priority. We provide 24-hour services to meet the demand and expectation of customers worldwide.

WHY 3S ?

LEADERSHIP MANUFACTURING ADVANTAGES AND CUSTOMIZED SERVICE

Trustworthy Cooperation Relationship

We prioritize the needs of end customers and partners, also focus on every detail of the project. Because of our sincere efforts and services, we have earned the trust of customers and partners, thereby establishing stronger and better cooperation relationships.

Outstanding Core Technology

The exceptional R&D team of 3S has developed AI intelligent video analysis technology as well as excellent software and hardware to meet all kinds of customer's needs.

Reliable Manufacturing Advantages

3S has the advanced equipment, standard process technology, abundant product manufacturing experience, and comprehensive supply chains to provide customized products as well as software for our customers.

Patent and International Certification

3S products are awarded with many certifications from domestic and international institutions, including new patent certification, ISO 9001 : 2015 quality management system, ISO IEC 27001 : 2013 information security management system, and IoT cyber security certificate in Taiwan, etc.

Achieve Our Goals, Shine Our Partners !

01 TRUSTWORTHY COOPERATION RELATIONSHIP

Integrity and honesty are the core of 3S business philosophy. We prioritize the needs of end customers and partners worldwide. 3S is dedicated to offering intelligent security surveillance products, diverse system integration, and an automatic management platform with a range of robust functions.

We not only care customer's needs, but also guarantee an approach to every project with our best professionalism. From discussion to execution, we concentrate on every detail to win trust and favor from partners.

We continuously fulfill customers' expectations and provide professional services in the future. In addition, we also expect to establish long-term cooperation with partners in various areas and make good relationships with our clients around the world.

CLIENTS

We build
security & intuitive GUI.

PARTNERS

We respect
our partners.

3S

We provide
best quality & affordable price.

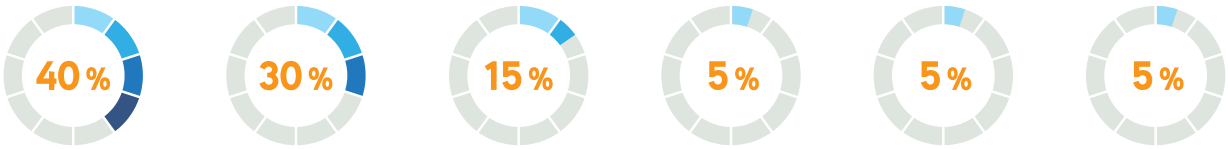
Creating a perfect win-win-win solution for clients, partners, and 3S.

Our Successful Cases

Based in Taiwan, Global Presence !

Our target is to provide a variety of video surveillance devices and physical security solutions. We continuously pursue various software design, system integration planning and innovative high-tech solution to satisfy customers' expectations.

Over 100,000 Users Globally



Homelands

- Military Camp
- Border Protection
- Police Unit
- Public Institutions

Transportation

- Railway / MRT
- Road
- Parking
- Airport
- City Surveillance
- Fleet Safety

Factory

- Manufacturing

Commercial

- Resorts
- Casinos & Gaming
- Bank & Finance Institutions
- Retail & Department Store
- Restaurant & Bar
- Stadium & Museum
- Various Facilities

Medical

- Medical Institutions
- Long-Term Care Institution

Education

- Campus

02 OUTSTANDING CORE TECHNOLOGY

As a pioneer of global image-processing technology, 3S has world-leading AI intelligent video analysis technology especially excellent image recognitions and detections. We also offer smart management platform to integrate diverse system.

Intelligent Analysis Technology

AI Analysis Technology Expert

THE MOST POWERFUL CHIPS FROM TAIWAN

3S Network products are equipped with AI SoC. The most powerful chips are jointly developed by Taiwan IC Intellectual Property Company and 3S together. However, achieving high computing efficiency and ultra AI processing, we utilizate TSMC's advanced fabrication technology to showcase our capabilities.

Excellent Design & Innovative R&D Tech.

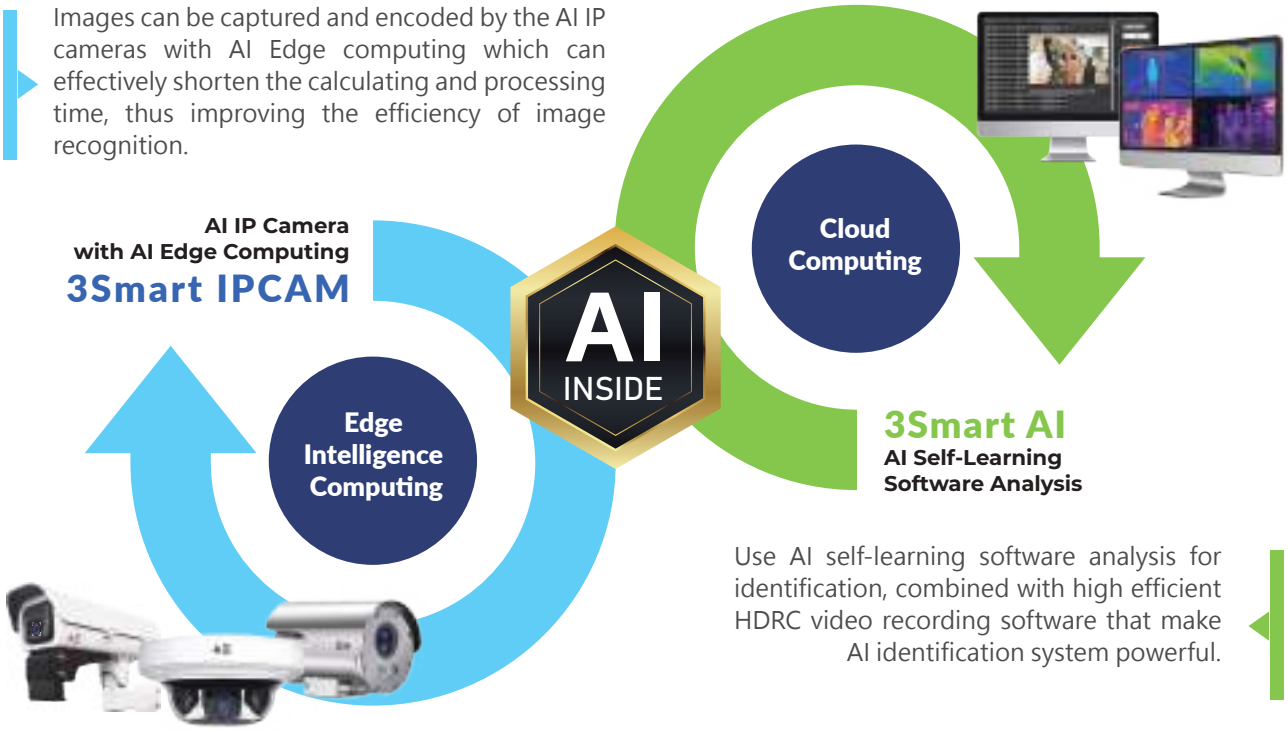
High Efficiency & Low Power Consumption

Ultra High-Speed AI Computing Capability

AI Makes Surveillance Smarter, Accurate and Efficient !!

EQUIPPED WITH POWERFUL ARTIFICIAL INTELLIGENCE

Images can be captured and encoded by the AI IP cameras with AI Edge computing which can effectively shorten the calculating and processing time, thus improving the efficiency of image recognition.



Use AI self-learning software analysis for identification, combined with high efficient HDRC video recording software that make AI identification system powerful.

ACCURATELY DETECTION & CLASSIFICATION WITH AI ANALYSIS

Human | Vehicle | Object | Animal

Above 28+ Analysis algorithms !

- Face Recognition
- People Counting Analysis
- Smart Motion Detection
- Abnormal Face Detection
- People Loitering Detection
- Tailgating Detection
- Smart Face Search
- PTZ Auto Tracking
- Crowd Density Analysis
- License Plate Recognition
- Vehicle Counting and Classification
- Traffic Jam Detection
- Reverse Direction Detection
- Smart Target Search
- Dynamic Video Concentration

03 RELIABLE MANUFACTURING ADVANTAGES

Equipped with the most advanced production equipment, all colleagues follow a strict standard production process to manufacture a variety of our products. We promise to keep high-quality assurance and stable production capacity in order to exceed our customers' expectations.

TAIWAN'S IoT CYBERSECURITY CERTIFICATE

3S network cameras meet the security requirements specified in the Internet of Things (IoT) security testing and verification standards in Taiwan. It obtains certification for information security and protect the property and safety of the nation's citizens. Moreover, it has been elevated to a superior product with robust cybersecurity protection, enhancing its competitiveness in the international market.
