

## About Us

Established in 1999, Scene Electronics (HK) Co. Ltd is located at Hi-Tech industrial park of the beautiful coastal city--- Shantou. Scene products have a multitude of applications: in financial institution, shopping mall, plaza, traffic, school, intelligent home, government, industry, military and various special occasions.

Scene has strong R&D, skilled sales and professional production management team. Our engineers focus on developing innovative products that have intellectual property rights and meet clients' needs. During the production, we strictly inspect every manufacturing process and ensure our product quality most competitive and most reliable in the industry. With years' experiences of marketing and techniques, Scene has become a professional, well known and trustful manufacturer of infrared and white light illuminator, intelligent IR illuminator, LED strobe light and environment illumination light sources solutions.

However, we know very well that an advance in technological expertise is just temporary advantage; the road to pursuit high technology will never end as it is the way that improves or changes lifestyles and products. In the future our senior, experienced and passionate team will keep offering you with high quality and value added products. Based on the concept of "quality excellence comes from digestion and pursuit", we will always stick to this faith and cooperate with every customer.

**VISION:** become an outstanding manufacturer of high effective, safe, energy saving and eco-friendly light source products.

**MISSION:** create more valuable light sources products and service!

**CORPORATE VALUE:** integrity, health, win-win and share!
