

FCS-3091
2-Megapixel Fish-Eye PoE Dome Network Camera

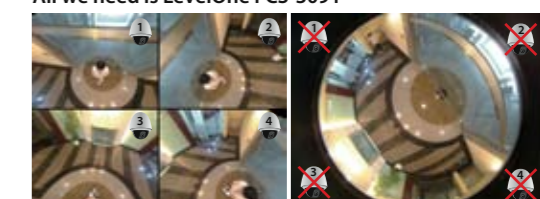

360° Panoramic IP Surveillance from LevelOne, Germany

The LevelOne FCS-3091, 2-Megapixel PoE Dome Network Camera has a built-in fish-eye lens for a 360° panoramic wide angle view without any blind spots. Compared with traditional P/T/Z cameras, the FCS-3091 allows you to view a wide area and record the entire room instead of installing multiple cameras or solely focusing on one angle. In addition the FCS-3091 is compliant with the IEEE 802.3af PoE standard, and works particularly well with the LevelOne GEP-2450 PoE power management switch.

- 1/3" CMOS 2-Megapixel, 1600 x 1200
- H.264 and MJPEG compression
- 360° fish-eye panoramic wide angle view
- 9 different 360°/180° video modes with ePTZ function
- 2-Way audio with built-in microphone and speaker
- Micro SD/SDHC card slot for local storage
- Dual power support: 12V DC/PoE (IEEE 802.3af)

All we need is LevelOne FCS-3091

Non fish-eye camera FCS-3091 replaced 4 cameras

360° Panoramic View – no blind spot

Original view Double view

Works Well With - PoE Power Management Switch :

24GE PoE with 4 Dual Speed Combo SFP Web Smart Switch
PoE Power Management is the newest feature set to be added to LevelOne Switches, enabling users to manage, control and monitor their power devices from the control room. Among the PoE Power Management features is a PoE timer to scheduled power on/off of the PoE ports. It can also set prioritization on specified ports to control the power usage.
