ECP-27 Series

ECP-2701

Ethernet & PoE over Coax Transceiver

Ethernet & PoE over Coax/UTP

ECP-27 Series

Designed for IP Camera System Installers

ECP-27 series are Ethernet & PoE over coax converters to make IP transmission with power via coaxial cable. You can save money and time to migrate to IP security system because ECP-27 series support easy installation utilizing the existing CCTV cables. Not only coaxial but also Cat5e(or better) or 2-wire cables, you have large variety of choice with ECP-27 series. ECP-27 series support from 1:1 to 1:63 multi-connection and 2,000m(4,000m with BTE-01) total data transmission distance.

-  Supports PoE, PoE+, or Extra PoE up to 50W
-  Multi-connection for both Tx / Rx on Coax/UTP
-  12V DC OUT for Non-PoE Camera

Product Overview

-  Data distance up to 2,000m on Coax
-  Data distance up to 4,000m on UTP Cat5e by using BTE-01
-  PoE distance up to 1,200m
-  Plug & Play easy set up
-  Bandwidth up to 270Mbps
-  Transmit full duplex 10/100/1000 Ethernet
-  Quality indicator for data & power transmission between Tx / Rx

4-port

ECP-2704T

Ethernet & PoE over Coax Transmitter

-  Multi-connection for both Tx / Rx on Coax/UTP
-  Ideal and economical for installing a group of 4 IP cameras
-  Supports 4 ports of PoE, PoE+, or Extra PoE up to 50W

4-port

ECP-2704R

Ethernet & PoE over Coax Receiver

-  4 BNC receiving ports for easy multi-connection
-  SOCP(Smart Over Current Protection) Technology controls and protects the power current for each channel automatically
-  SIM(Smart Impedance Matching) Technology controls best impedance matching for better data transmission

EPR Series

PoE Repeater
EPR Series
Designed for IP Camera System Installers

EPR Series are Ethernet & PoE repeaters to overcome max 100m distance limitation. It helps to make easy and cost-effective IP extension solution. Each EPR product re-sends data and power to every 130m without additional power adapter. It supports PoE standards and auto detection for PoE and non-PoE devices.

Product Overview

Data and PoE extension to every 130m

Max. 600m with 4 repeaters

No extra power adapter required

Supports PoE up to 15W

PoE ON/OFF Switch(EPR-101 only)

EPR-111

BTE-01
BNC to RJ45 Exchanger

BNC to RJ45 Exchanger

BTE-01

Designed for IP Camera System Installers

BTE-01 is a converting adapter to change BNC to RJ45 port.
It can only be used with ECP series to use UTP(Cat5e) cable instead of coaxial.

- BNC to RJ45
- Coax / UTP Various choice of cable, coaxial or UTP
- Plug & Play easy set up

ECP-8404R

Product Specification

Model	RJ45	UTP	Weight	Dimension(W x L x H)
BTE-01	UTP/STP	Cat5e or Better	30.5g	24 x 52.9 x 24.5mm

LP-1600
Ethernet over Coax Long-range Power Receiver

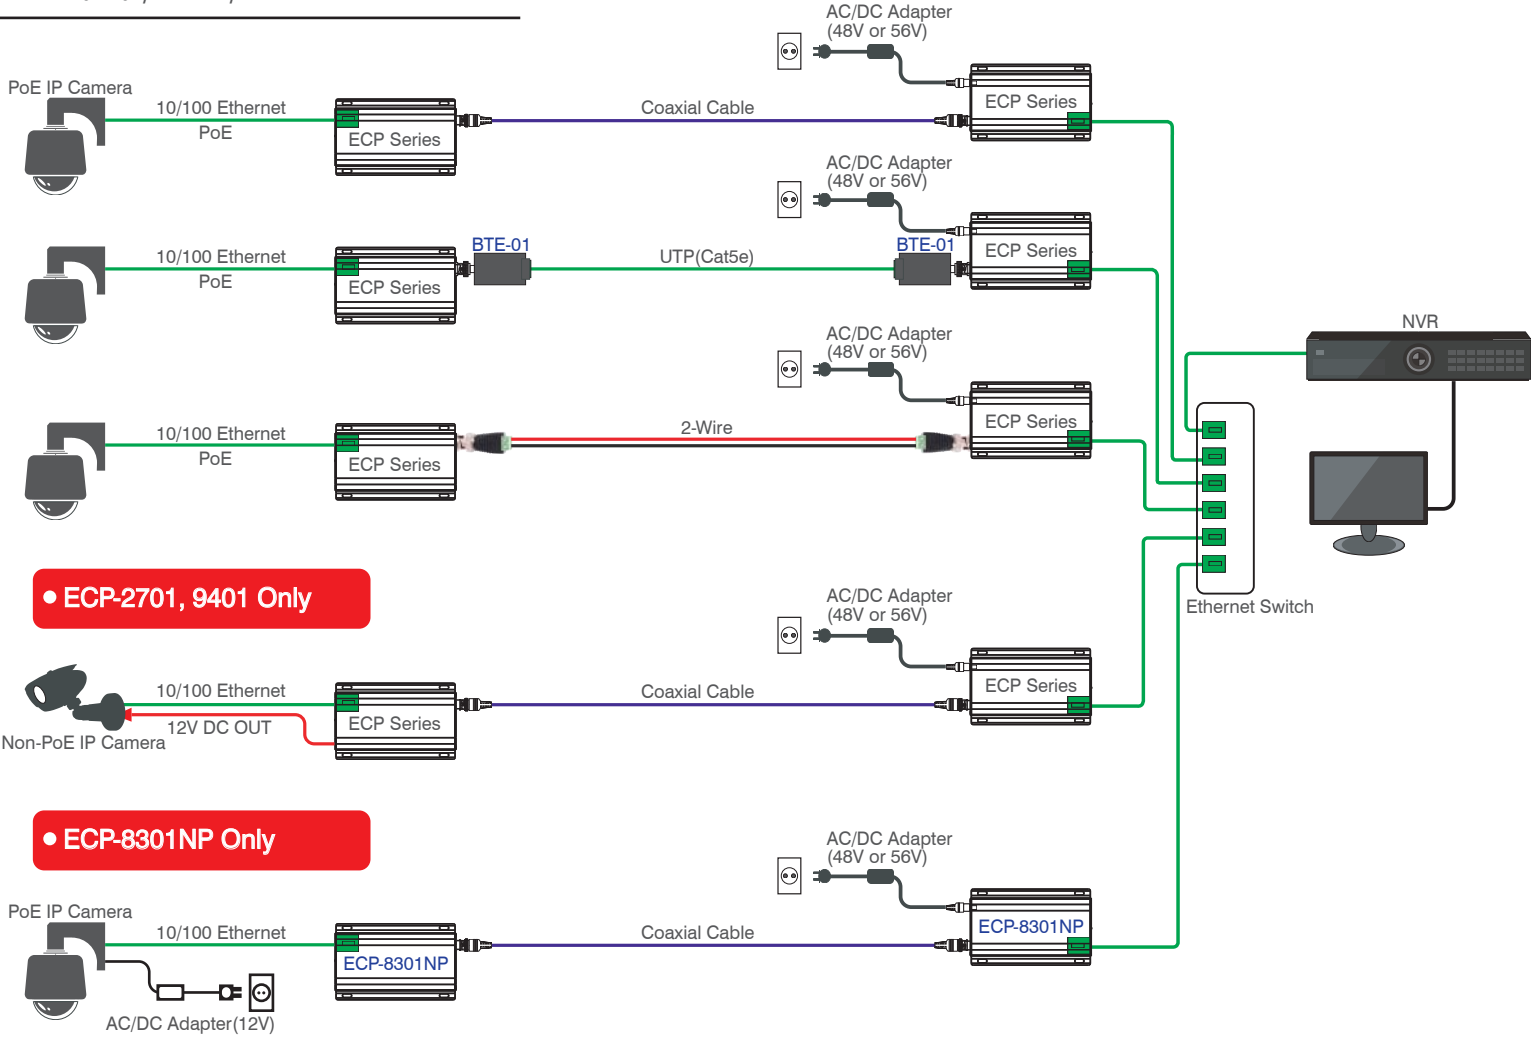

- Data & Power up to 1,600m over coaxial cable
- Transmit full duplex 10/100/1000 Ethernet
- Max data bandwidth up to 270Mbps
- Easy configuration, no PC required
- High efficiency SMPS(130W, AC required)is built-in and it distributes power over the coax to all connected ECP-series
- SOCP(Smart Over Current Protection)Technology controls and protects the power current automatically
- LCD display shows for operating status and quality of data & power connection for monitoring

Product Specification

Model	RJ45	Coax	Power	PoE	Max Bandwidth	Max Distance
LP-1600	10/100 /1000 Ethernet	5C/RG6 or Better	AC 100V ~ 240V	PoE, PoE+, Extra PoE	270Mbps	1,600m

Application

> Coaxial / UTP / 2-Wire

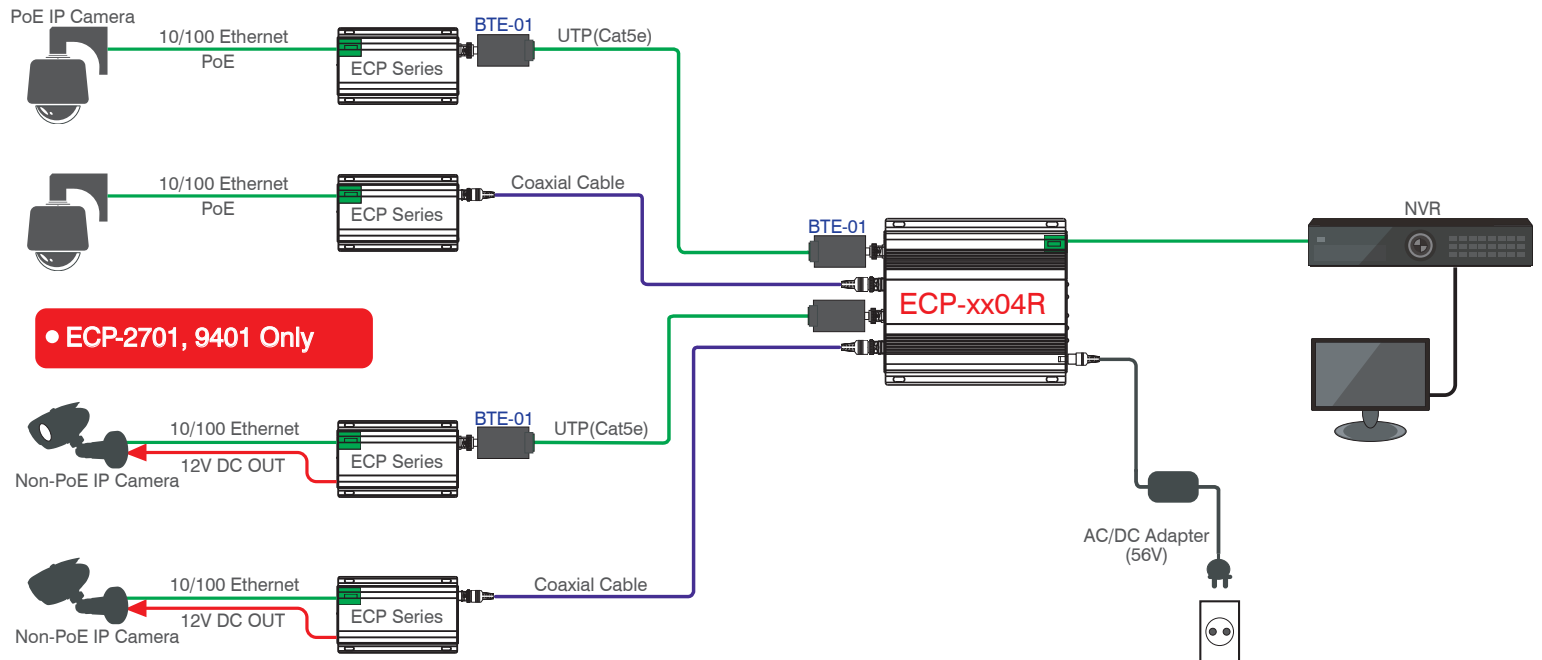

> Daisy Chain

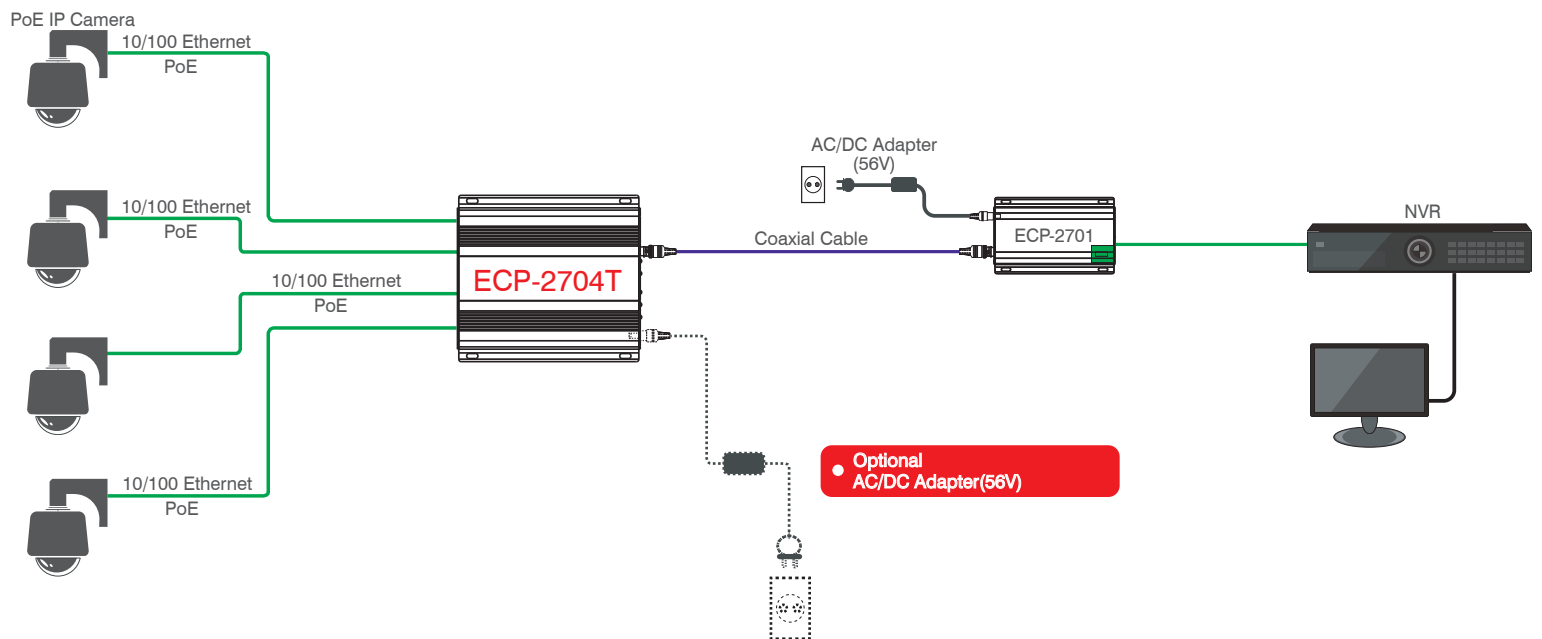

> Ethernet & PoE Extension

> Quad Connection - 1

> Quad Connection - 2

* The total number of IP camera may vary with the type and power consumption of each IP camera

* Compatibility between products is available in the series
