Subject: Appreciation for PTZ pixel zoom Camera

Dear All,

There was a demo arranged by **** Police where all the vendors presented their cameras,

Wanted to appreciate the quality of JXJ products, especially the PTZ pixel zoom model.

Attached is the picture of JXJ PTZ vs D**** PTZ, the superior quality and amazing clarity made us get good comments .

Alan has been very helpful with many requests with short notice who made the demo possible.

Please convey our appreciation to your technical team and management on best products you are manufacturing.

Looking forward for a long term mutual beneficial relationship with JXJ.

I shall travel very soon to meet all of you & start to order some good quantities.

Thank you !

Regards
Ali. K
