

3S SYSTEM TECHNOLOGY INC.

# SUPERIOR PERFORMANCE FROM **TAIWAN** CUSTOMIZED FOR YOU

## MULTI-SENSOR CAMERA SERIES Panoramic / Multi-Direction **All-in-One**

Panoramic Multi-sensor IP camera provides 180° or 360° field of view and focus on a specific large area. Combining two or four sensors in one housing can allow the camera to create an effective panoramic experience and get wide views and forensic details from one camera.

### Key Features

### 4CH Multi-Direction with 5MP x 4 / 2MP x 4 **360°**

- Four-sensor modules in one housing
- High quality unlimited coverage
- Extreme low light visibility
- 360° wide-area vision
- Support for advanced analytics

### 2CH Multi-Direction with 5MP x 2 / 2MP x 2 **180° 360°**

- Dual-sensor modules in one housing
- High quality unlimited coverage
- Extreme low light visibility
- Flexible multi vision

### 2CH / 4CH Multi-Sensor with 5MP / 2MP x 2 or x 4 **180°**

- Four or Dual-sensor modules in one housing
- High quality unlimited coverage
- Extreme low light visibility
- 180° wide-area vision
- Seamless 180° panoramic view

City Surveillance

Railway Station

Indoor Corner

One Panoramic Multi-sensor IP camera can perform the work of many cameras to reduces all system costs and provide a higher return on investment. It is perfect to be adopted in large spaces such as city surveillance, industry, parking lot, railway station, exhibition center, airport, port, etc.

## SUPERIOR PRODUCTS

### SPECIALIZED SAFETY CATCHER IR BULLET WITH POWERFUL RADAR IP CAMERA

Built-in high sensitivity sensor which can capture saturated and clear images in the dark. Provide ultra-high definition images in case of high-speed movement. Combined with radar detection technology and LPR function.

### SMART AUTO-TRACKING SPEED DOME IP CAMERA

Designed with rugged housing and highly adaptable in the hardware structure and easily cope with the temperature drop caused by extreme weather. Their unique optical zoom technology and horizontal and vertical movement function can quickly respond to each instruction action and effectively capture detail pictures.

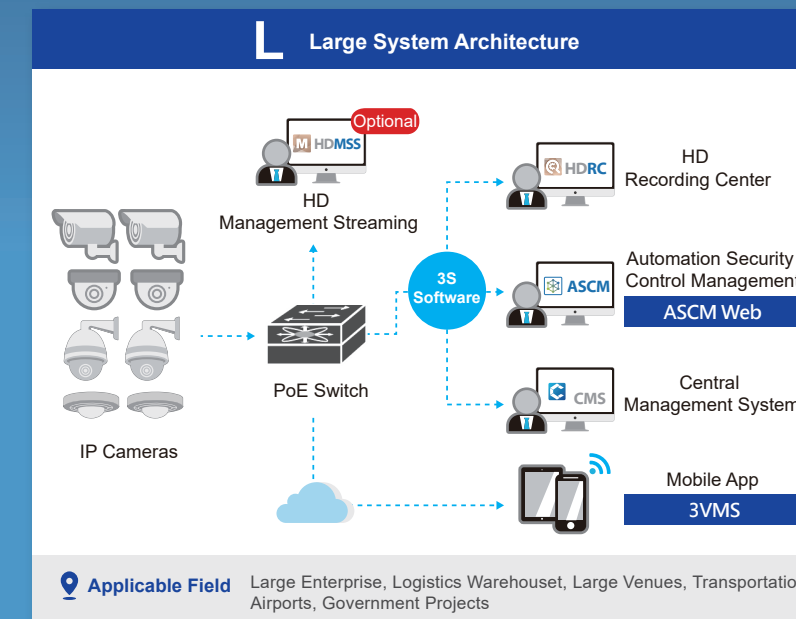

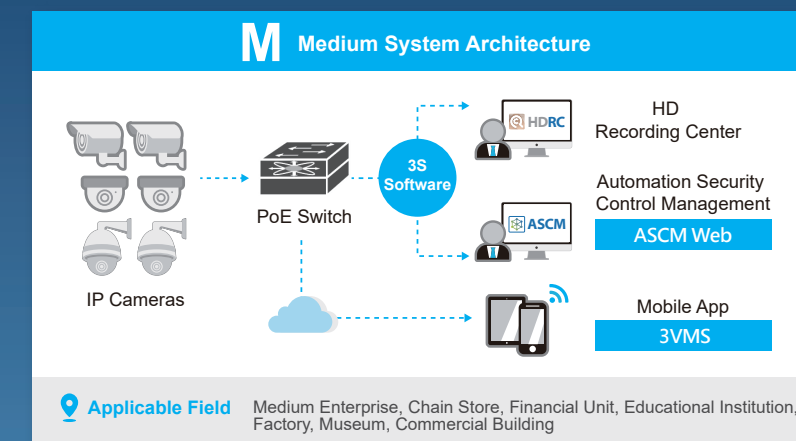

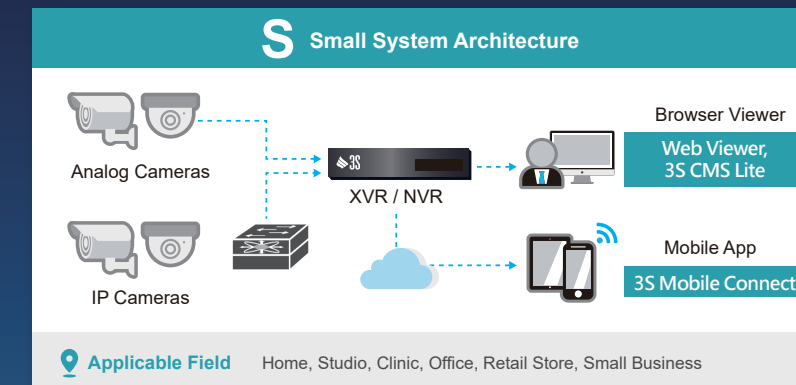

### 360° AND 180° PANORAMIC BROWSING FISHEYE IP CAMERA

Fisheye IP Camera equipped with 12MP ultra-high resolution, and the image quality is clear and more delicate. They can effectively replace the disadvantage of four fixed lens IP cameras with limited viewing angle, and greatly reduce the power consumption of the device, which conforms to the economic benefits pursued by the proprietors.

## SYSTEM ARCHITECTURE

## SOFTWARE INTRODUCTION

### EXCELLENT VIDEO RECORDING MANAGEMENT

#### HDRC High Definition Recording Center

High-quality Video Recording Functions And Graphical User Interface Exactly Meet Yours.

HDRC can truly record all the details of the image with the best high-quality video recording capability. Its rich functions and intuitive interface can make users operate it easily. HDRC provides a variety of expandable equipment mechanisms to solve insufficient video storage space in order to complete video management and storage within the least time!

#### NOVATEK Taiwan's Chips

### EMBEDDED XVR & NVR 4CH, 8CH, 16CH, 32CH, 64CH

B Class Series are Linux-based standalone hybrid video recorder and network video recorder are provided with Taiwan's well-known NOVATEK chips, which can not only effectively improve video recording performance, but also solve the doubts about the security during image.

### BEST VIDEO MANAGEMENT SOFTWARE & INTEGRATION PLATFORM

#### ASCM Automation Security Control Management

Highly Heterogeneous System Integration Platform With Stable & Diversified Functions Meet All Possibilities!

ASCM is specially designed to integrate various heterogeneous systems. The intelligent division of work among heterogeneous systems can improve the safety and operation efficiency of the field environment and devices. The superior control management platform truly achieve the purpose of intelligence, automation & immediacy.

#### CMS Central Management System

High Efficiency, Easy To Integrate And Deeply Applied In Various Industries. The Interface Can Be Customized According To Your Needs.

CMS is a centralized monitoring and management platform with extremely powerful management functions that can manage different software in the same platform. Set the use authority with the group concept and provide customizable layouts and flexible configuration to realize efficient management.

## 3S SYSTEM TECH. INC.

Leadership Manufacturing Advantages  
& Customized Services

### TAIWAN Headquarters

#### 3S SYSTEM TECHNOLOGY INC.

ADD : 6F., No.5, Lane 16, Sec. 2, Sichuan Rd. Banqiao Dist.,  
New Taipei City 220620, Taiwan

## TAIWAN CHIPS & 3S SMART AI

# TalentNet

### PROFESSIONAL SMART AI SOC

3S System Tech. Inc. carries out the research and development jointly with Taiwan IC Intellectual Property Company.

Through the TSMC's advanced nanometer process technology.

The performance of AI smart chip is ahead of the market demand.

## AI MAKES SURVEILLANCE SMARTER, ACCURATE AND EFFICIENT !!

### ABOVE 28+

## SMART THERMAL

### UNIQUE THERMAL IMAGING DETECTION

The latest thermal imaging sensors are used, which are divided into Explosion-proof Thermal, Thermal with dual-lens and single-lens models. The built-in AI algorithm and unique invisible light technology of the camera are widely used in fields with high safety.

### Key Features

**Explosion-Proof Thermal IP Camera**  
SUS304 / 316L stainless steel  
IP69K-rated + IK10  
Exd IIC T6 certification

**Thermal IP Camera with Single-Lens**  
Built-in single Ge lens  
Thermal Module :  
Max. Res. 384x288 / 640x480  
IP66-rated

**Thermal IP Camera with Dual-Lens**  
Thermal Module :  
Max. Res. 80x60 / 160x120  
Optical Module :  
Max. Res. 1920x1080  
IP66-rated

## ABOUT 3S SYSTEM

## 3S SYSTEM TECH. INC. MARKET-LEADING POSITION OF SMART SURVEILLANCE IN TAIWAN

Pursue the goal of "Safety and Best Quality", demonstrate our successful practice experience to the customers around the world and contribute to the global smart surveillance market with expertise!

## 3S SOLID CAPABILITY

### Leadership Manufacturing Capability & Customized Service

3S is based in Taiwan and self-operated, supplemented by rich product manufacturing experience and comprehensive supply chain to provide perfect customized services.

Over 100,000 Users Globally

## WHY 3S

[www.3svision.us](http://www.3svision.us)

### RELIABLE MANUFACTURING

The factory of 3S System has the most latest and advanced production equipment, standardized process technology, and ISO 9001 international certification.

### INNOVATIVE R&D

The outstanding R&D team of 3S System develops multiple intelligent video analysis products and excellent software for various customer's needs.

### INTERNATIONAL CERTIFICATES

3S's products and software have the certification standards of ISO 9001 : 2015 quality management system, ISO IEC 27001 : 2013 information security management system and also got many international certification.

### JDM, ODM, OEM PARTNERSHIP

3S System has won the approval of customers all over the world with rich product manufacturing experience and perfect supply chain.

## RELIABLE PRODUCTION CAPACITY

### "Quality Assurance" & "Stable Supply" are the key points of 3S success.

The factory has the most advanced production equipment, standardized process technology, and get many international certifications. We can promise all products are only ten thousandth defects in the production process for customers.

Based in Taiwan, looking forward to the world.
