Product Announcement

AirLive NAS-235 Does More Than You've Ever Expected!

Dear Customers,
AirLive is glad to announce our 2Bay DiskMaster – NAS-235
To back up your important data 2X faster & easier!

NAS-235

SATA II | RAID 0.1 | USB 2.0 | Giga Port

WiFi Capability* | BitTorrent Client | UPnP | Samba

Up to 200Mbps Write & Read
Equipped with advanced CPU, Flash & Memory, AirLive NAS-235 allows you to back up your important data fast & easy!

Multimedia Friendly
AirLive NAS-235 supports multimedia broadcast and download, including audio streaming, such as iTune, MP3 broadcast server, video streaming via media player by using UPnP AV standard, and built-in downloader for BT, FTP and HTTP.

Wi-Fi Compatible
With AirLive WN-200USB - the 150Mbps USB dongle, AirLive NAS-235 becomes a wireless file server with up to two 3.5" SATA hard drives for instantly file sharing in the network.

Access Control Filter & Data Protection
Featuring with the 2-layer file-sharing function, AirLive NAS-235 allows you to define with user private folder and group share folder. By supporting RAID 0 1 of the mirroring function, this network storage optimizes your hard drive capacity usage and prevents the data loss from HD failure.

Smart & Easy Management
AirLve NAS-235 comes with smart software, which allows you to schedule the timing for automatic shut-down, reboot, or even data backup.
