

Year: 2010 Q1

Hotel Name: Conrad Hotel

Country: Singapore

Products: AM9730M

Solution: A-MTK H.264 Mega IP Solution.

Background

The Conrad Centennial Singapore is most global contemporary luxury brand of the Hilton Family, an award-winning luxury business hotel, is strategically located in the heart of Singapore's liveliest and largest business, historical, cultural and shopping districts of Marina Bay, Millenia Walk and Suntec Singapore. The hotel also enjoys close proximity to Singapore's central business district and is a 20-minute drive from Singapore's Changi International Airport.

Solution

The A-MTK IP surveillance system, installed in one of the major hotels in the city of Singapore, total composed by 105pcs AM9730M H.264 Mega Indoor dome IP cameras and few pcs of AM9539 H.264 CCD IR IP Cam. These cameras were installed in reception, Lobby, restaurants, cafeterias, kitchen,

business center, storage areas, and meeting rooms to secure the hotel. And recording system matches our 3rd party Cybervision Hybrid DVR.

Benefit

Actually the end user didn't know about A-MTK. SI introduced A-MTK IP Cameras, the quality, the wide line of cameras for different environments. Nowadays the end user has good satisfaction with our solution and that is why they choose this system to monitor main areas of the Hotel. And the SI had good experience and the knowledge to recommend the right model fulfilling the right solution of the environment.

The system uses an independent network, independent structured cabling, and PoE switches at each site. Besides about the recording system Hybrid DVR, they use Cybervision where the management can be done as well. The manager has the workstation in his office to monitor each area .And due to each site are using IP Cam for monitoring , so that, the manager can easily access to these images from anyplace using internet.
